

## WITH A WHITE BORDER

## WITHOUT A WHITE BORDER (Bleedcut)

### 1. Place your design in the Artwork Layer

### 2. Adjust the size to match your order

If not, don't worry. We will resize it for you.

### 2. Place your cutpath in the CutPath Layer

Place your cutpath in the CutPath layer. CutPath must use a blue color (100% cyan) and be called "cutpath"

If you want white border, add it around your art (minimum 2mm)

If you want a bleedcut, make sure your Cutpath is smaller than your Art (minimum 2mm)

### 3. Please convert your text to outlines

### 4. Save as EPS

Yeah! You are all done :) We will check it for you. Just wait for our digital proof per email (in 24h) and confirm it's all okay!
